# COMMUNITY STONE TOOL WORKSHOP

14<sup>TH</sup>-15<sup>TH</sup> DECEMBER 2017

Stone tools are our heritage. It is often unknown exactly what these tools were used for, but modern techniques enable us to have greater understanding. Scientific equipment now lets us analyse the residues and use wear on the tools. These new methods are harmless to the tool. We will present the potential of this work to the Aboriginal community and analyse some important tool types. A stone tool making session will also be included.

**VENUE: PIYURA KITINA /RISDON COVE**  
**14<sup>TH</sup>-15<sup>TH</sup> DECEMBER 2017. 10AM-4PM**

This workshop will run over 2 days. People are welcome to attend one or both days. For more information or RSVP contact Andry

Sculthorpe: on 62 431 761 or [andry.s@tacinc.com.au](mailto:andry.s@tacinc.com.au)

**All Aboriginal people are welcome.**
